Data Analysis with SQL / Datacamp
Excel Formulas & Function Mastery /
Foresight BI

Professional Summary

Results-driven Data Analyst skilled in SQL, Excel, Power Query, and Tableau for data cleaning, analysis, and visualization. Familiar with Python and R programming. Adept at translating business needs into actionable insights, building dashboards, and analyzing financial and marketing data to support data-driven decisions. Strong communicator and problem-solver with a passion for turning raw data into strategic business value.

Projects

My Financial Statement Analysis (Excel and Pivot Table) 2025

https://github.com/okuujustin/myfinancial_statement_analysis_Sept-Dec2024

- Analyzed personal financial records to track income, expenses, savings, and borrowing.
- Discovered that expenses exceeded income with no savings, prompting a budget adjustment.
- Achieved a 20% increase in savings and 15% reduction in expenses within the following year

Data Cleaning and Formatting (Excel and Power-Query) 2025

https://github.com/okuujustin/Data_Cleaning_Using_Excel_and_PowerQuery

- Cleaned and transformed a healthcare dataset by removing duplicates, handling null values, and standardizing formats.
- Prepared the dataset for analysis and generated a clean, structured report using Excel and Power Query.

Superstore sales performance analysis (Excel, Power-Query and Tableau) 2025

<https://github.com/okuujustin/Superstore-Sales-Performance-Dashboard>

- Analyzed sales trends and revenue across U.S. states to identify underperforming locations.
- Found that reducing shipping time and applying smarter discounts could boost revenue by 25%.
- Built a Tableau dashboard that highlighted sales gaps, shipping delays, and actionable insights.

US Border Crossing Analysis (Excel, Power-Query and Tableau) 2025

<https://github.com/okuujustin/US-Border-Crossing-Analysis>

- Analyzed border crossing trends between the U.S.-Canada and U.S.-Mexico borders.
- Visualized the data in Tableau to reveal seasonal movement patterns and potential economic gaps.
- Proposed strategies to improve trade activity and revenue across both borders by 10%.
